MCPT Provides Barrier Free Public Transportation

The McDonough County Public Transportation System (MCPT) provides complementary paratransit (curb-to-curb) service to persons who, because of a disability, are unable to use the regular bus system. Paratransit service eligibility is based upon a person's functional ability to use regular Go West bus service. Through an application process, individuals are granted usage of the paratransit service for up to four years.

ELIGIBILITY GUIDELINES

- Any person who is unable, because of a disability, to independently board, ride, and/or disembark from a lift equipped bus can use the paratransit service. This includes persons who are unable to "navigate" Go West's system without the assistance of another person.
- Any person with a disability who is able to use a lift or ramp-equipped bus, but for whom any desired trip cannot be made because the fixed route he/she wants to ride is not operated by a lift-equipped bus, may utilize the service. Persons under these circumstances may be eligible for paratransit service. Currently, 100% of the Go West's regular buses are lift-equipped.
- Any person with a disability who has a specific impairment-related condition that prevents him or her from traveling to or from a boarding or disembarking location can use the service.

CONDITIONAL ELIGIBILITY

- Some people with disabilities may be able to use the regular Go West bus service under certain conditions, but not under others. Therefore, eligibility for paratransit service for some people will be determined on a trip-by-trip basis.

TEMPORARY ELIGIBILITY

- A person with a temporary disability is eligible for paratransit service if the disability results in his/her functional ability to use the Go West bus system as described above. Temporary eligibility may be granted up to the amount of time recommended by a medical professional.
